## PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience building responsive, user-centric web applications using React.js, TypeScript, JavaScript (ES6+), HTML5, and CSS3/SCSS. Proven ability to integrate RESTful APIs, optimize performance, and deliver feature-rich interfaces. Currently pursuing B.Tech in Computer Science; actively contributing as a Software Developer Intern.

## EDUCATION

**Dr. A.P.J. Abdul Kalam Technical University — Kanpur Nagar, Uttar Pradesh**

*Bachelor of Technology in Computer Science and Engineering | Sep 2023 – May 2027*

**Florets International School — Kanpur Nagar, Uttar Pradesh**

*Intermediate | Apr 2021 – Mar 2022 | 75%*

## EXPERIENCE

**Software Developer Intern | RAZORSE Software Pvt. Ltd. — Ghaziabad, Uttar Pradesh**

*January 2023 – Present*

- Designed and implemented an automated service to execute daily unit tests on a product under development, reducing bug identification time for team members.
- Developed JavaScript scripts to aggregate JSX test results into a structured format and deploy the latest build to hardware for continuous daily testing.
- Built HTML, JavaScript, and CSS pipelines to visualize and distribute daily test-result reports to team members.

## PROJECTS

**Imavatar | React.js, TypeScript, SCSS/Sass, CSS3, Git, VS Code — December 2023**

- Designed and implemented comprehensive homepage layouts prioritizing aesthetics, functionality, and user engagement for a seamless browsing experience.
- Built dynamic sliders, interactive forms, and reusable UI components to deliver an engaging, user-friendly interface.
- Integrated RESTful APIs to enable real-time data retrieval, enhancing application functionality and connectivity.
- Implemented fully responsive layouts using Bootstrap, Flexbox, CSS Grid, and Media Queries, ensuring cross-device compatibility.
- Configured React Router for smooth client-side routing and navigation throughout the application.
- Developed complex features including booking data tables, FAQs, modals, and dynamic components for a feature-rich experience.

**All Home Desire | React.js, SCSS/Sass, CSS3, Git, VS Code — July 2023**

- Integrated 30+ RESTful APIs for property listings, user authentication, contact forms, and buyer/seller interactions; used Postman for API validation and testing.
- Developed dynamic property listing and detail pages displaying comprehensive buyer/seller details, features, and pricing to support informed decision-making.
- Built a fully functional contact form with seamless API-driven data handling and input validation.
- Optimized frontend performance with lazy loading for property images and dynamic data fetching, reducing page load times.

**Dating Site | React.js, SCSS/Sass, CSS3, Git, VS Code**

- Integrated 15+ RESTful APIs for authentication (signup, login, password recovery), user profile display, favorites management, and chat functionality; validated with Postman.
- Developed a real-time chat interface, personalized favorites list, and dynamic user listing with seamless API connectivity.
- Built a mobile-responsive, visually appealing UI with secure authentication workflows and intuitive navigation.

## TECHNICAL SKILLS

**Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript

**Frameworks & Libraries:** React.js, Bootstrap, Tailwind CSS

**CSS Preprocessors:** SCSS/Sass

**Developer Tools:** Visual Studio Code, Sublime Text, Chrome DevTools, Netlify, Heroku, AWS

**Build & Version Control:** Git, Webpack, NPM, Yarn

**Responsive Design:** Media Queries, Flexbox, CSS Grid
